

TANKER SHUTTLE SERVICE ACCREDITATION

On August 24, 2008, The Township of Severn achieved “Tanker Shuttle Service” accreditation through Fire Protection Survey Services. This accreditation ensures that the Severn Fire Department can supply enough water to fight a major fire in an area that is not serviced by hydrants.

Achieving this means that rural residents in non-hydrant areas of Severn Township should be eligible for a reduced insurance rate on their home insurance.

Several local insurance companies, within Orillia and Coldwater, have been contacted and advised of this achievement.

You as a ratepayer in the Township of Severn can contact your insurance company and ask them if you are eligible for a reduced rate on your home insurance. If they require documentation you can come into the Severn Township Office and pick-up a letter to give to them or have the Insurance Company contact Severn Fire Department at 705-325-9131.
