Hi Andrew,

MTO recognizes that the Webers OPA and ZBLA are going to the statutory Public Hearing this Thursday, October 15<sup>th</sup>. Please be advised that the Ministry will be commenting on these Planning Applications, but will not have comments prepared in time for the Public Hearing. Please advise us when the files are expected to go to Council and we will work on providing comments prior to the Township staff report so that our comments can be incorporated.

Best Regards,
