# OVERVIEW

## What we need

The Township of Severn's Public Works Department is looking for a qualified Contractor to supply, deliver, apply and compact granular surfacing on the Uhthoff Trail between Thorburn Road and Foxmead Road (4,400m length).

## What's important to Us

The Township is looking for a credible Contractor who has the capability and experience to supply, deliver, apply and compact the screenings no later than **August 30, 2019**.

## Project Background

This project is a continuation of a project completed in 2017 which provided 150mm of Granular 'A' Base to improve the trails load bearing capacity and drainage. This base course has been considered by many trail users to be an unsuitable top layer, as it is difficult for some users to negotiate and considered too rough. Therefore, it is important that the proposed granular surfacing is well compacted and that a fine crushed stone is used to provide a smooth surface with adequate firmness and evenness.

## About the Township

The Township of Severn "Township" is a diverse blend of rural, small urban and vacation lifestyles. Founded on January 1, 1994 through the restructuring of Simcoe County, the Township is comprised of the former Village of Coldwater, Townships of Orillia and Matchedash, as well as portions of the former Townships of Tay and Medonte. The Township's current population is 13,477.
